

WATER PARK RULES

These water park rules serve to respect applicable legal regulations, to protect health and to guarantee safety of all visitors in the **Tatralandia Liptovský Mikuláš water park**, Ráztocká 21, 031 05, Liptovský Mikuláš (hereinafter referred to as “**water park**“), which is operated by the **Tatry mountain resorts, a.s.** company with the registered office at: Demänovská Dolina 72, 031 01 Liptovský Mikuláš, Company number: 31 560 636, registered in the Commercial Register of District Court Žilina, Section: Sa, Insertion no.: 62/L (hereinafter referred to as “**operator**”). Every visitor is obliged to read these rules when entering the water park complex. By paying for water park tickets and/or entering the water park, every visitor agrees with these water park rules and undertakes to respect them as well as all instructions of the water park staff. All current instructions in the water park are considered superior to general instructions.

1 Access to the Tatralandia water park/pools

1.1 The water park can be entered only during the water park opening times and every visitor must wear a valid entrance chip (wristband with an electronic chip that serves as a ticket). Clients are informed about the system of ticket selling and payment by the staff of the water park ticket offices.

1.2 The water park opening times differ based on the season. The current opening times are always published on the water park website: www.tatralandia.sk. The operator reserves the right to change the water park opening times. All opening times changes are published on the water park website: www.tatralandia.sk and displayed at the water park entrance. Every visitor should acquaint themselves with the current opening times and potential limitations before coming to the water park. The opening times of individual attractions are specified by the operator and displayed at individual attractions. The last clients can enter the water park no later than 30 minutes before the water park closes. Every ticket, i.e. wristband chip is activated (becomes valid) once the respective client passes through the entrance turnstiles and becomes deactivated (invalid) once the respective client passes through the exit turnstiles, i.e. leaves the park, or once the water park is closed. Every ticket includes an extra period for changing clothes and drying oneself. If any client spends more time in the water park than they have prepaid, they must pay the respective surcharge based on the current price list at a cash desk.

1.3 Children younger than 12 years must be accompanied by an adult older than 18 years to enter the water park. The accompanying adult is responsible for the child all the time while staying at the water park and cannot leave the child unattended.

1.4 After paying the respective entrance fee, every client receives a wristband with an electronic chip that not only enables them to enter the water park but serves also as a cashless method to pay for extra services, food, drinks and other services used in the water park. Every chip has a financial limit in the total amount of €105, i.e. €100 for consumption and €5 as a fine for a potential chip loss. All surcharges registered on the chip have to be paid at cash desks located at water park exits when leaving the park. If any customer uses the whole financial credit while staying in the park, they can top up the credit at surcharge cash desks or at cash desks in the exit area. Once the surcharge is paid, the original financial credit for consumption and other services in the amount of €100 is available again.

1.5 Every water park ticket can be used only once. If the respective client leaves the park, their ticket becomes invalid. In such case, it is not possible to enter the park without buying another ticket. This does not apply to guests staying at Holiday Village Tatralandia.

1.6 The operator does not guarantee the availability of pool beds, pool umbrellas, sports equipment, wellness treatments, Celtic sauna world tickets, lockers and safes to clients who

enter the water park. The availability of these products depends on the total capacity of the Tatralandia water park.

1.7 The operator reserves the right to close selected sections or attractions of the water park or to limit their operation in case of unavoidable maintenance and/or for safety or operational reasons (bad weather, storm, low visibility, if the maximum capacity is reached) and/or when organising social or sports events without offering any refund of the entrance fee or its aliquot part or any other financial or non-financial compensation to clients.

1.8 Due to hygiene reasons, pools can be used only by clients wearing swimwear. Water in the pools contains minerals that can cause swimwear discolouration beyond repair. The operator is not liable for such damage.

1.9 Children's pools can be used only by children younger than 6 years. Adults can enter children's pools only if they are accompanying a child smaller than 100 cm.

1.10 Clients with limited mobility/orientation can use the water park pools only if they are constantly looked after by an accompanying person.

1.11 Clients with forearm crutches, walking canes, prostheses, orthoses and other hygienically inappropriate items can use the water park pools only if they leave such items in the respective storage area or change them for hygienically acceptable ones.
